Bernallio	any retail business including, but not limited to, a convenience store, restaurant, grocery store, pharmacy, home improvement stores, liquor stores, gas stations, seasonal or temporary business, farmers market or farm stand, and sellers of merchandise and dry goods to the consumer. For purposes of this ordinance, food banks and dry cleaners are not defined as retail establishments.	A retail establishment will not provide at the point of sale a single-use plastic carryout bag or single-use polystyrene container to any customer. Single-use carryout bags do not include bags without handles provided to the customer to transport produce, bulk food, candy, packaged meat, bulk food, or meat packaged in the meat department prior to the point of sale; to hold prescription medication dispensed from a pharmacy; to segregate food or merchandise that could damage or contaminate other food or merchandise when placed together in a bag.	The production and disposal of single-use plastic bags and single-use plastic bags and single-use polystyrene containers create significant environmental impacts including the contamination of the environment, ingestion and entanglement by wildlife, and widespread litter. Single-use polystyrene containers create non-recyclable and non-degradable refuse streams while more environmentally sensitive alternatives are available. The purpose of this ordinance is to protect and enhance the county's unique and precious environment, wildlife, and beauty through the reduction of single-use non compostable or non-recyclable bags and containers, and to encourage the use of reusable or sustainable options.	The retail establishment will post at the point of sale or on each bag a notice that the bags and containers issued, after this ordinance goes into effect, are recyclable and/or compostable and encourage recycling of the bags and containers. Nothing in this section shall be read to preclude retail establishments from making reusable bags and containers available for sale to customers. All county retail establishments are encouraged, but not required, to post notices encouraging customers to bring their own reusable shopping bags.	Any owner of a retail establishment found in violation of any provision of this ordinance is subject to the following penalties: 1. A formal warning for the first offense 2. A civil fine of \$100 for the second offense; 3. A civil fine of \$250 for third offense and subsequent offenses. Each calendar day during which the civil violation occurs shall constitute a separate and distinct offense. Failure to pay a fine imposed by this article may prevent the issuance of a business license or business license renewal.	No less than 60 days prior to Jan. 1, 2020, the Board of County Commissioners will initiate a public education campaign about the new regulations, encouraging the use of reusable or sustainable options and the recycling of permitted singleuse items. Information is posted on the county website at www.bernco.gov , and outreach to the local news media, via social media and by other means, will reach retailers, their employees and customers.	1/1/2020
