- J. Payments for additional services of the Architect shall be a negotiated lump sum, excluding additional services of consultants.
- K. Payments for additional services of consultants, including but not limited to the additional structural, civil, landscape, interior design, mechanical, and electrical services, shall be computed by applying a multiple not to exceed of 1.10 times the amounts billed to the Architect for such services. NM grt will be added as a separate item in the pay request.

The Architect consultants shall attend each meeting as appropriate or as requested by the County.

9. MONTHLY PROGRESS REPORTS

- A. The Architect shall submit monthly progress reports of design/construction activities to the County. Failure to submit monthly reports may result in delay to the Architect's progress payments. The report shall include:
 - 1) Activities completed and items pending since last report,
 - 2) Projected progress,
 - 3) Comparison of schedule to actual progress, and
 - 4) Decisions or information required.

B. The Architect shall request from the County the following:

- 1) Information sufficient for the Architect to develop program criteria including the County's goals, objectives, and needs, and the organizational chart of individuals, furnishings, and equipment for a project.
- 2) To the extent practicable and reasonable, the Architect shall incorporate the County's requests into the documents for construction; however, the Architect is responsible solely to the County for the types of material incorporated into the construction, the size of the facilities constructed, and to design within the MACC.
- 3) A list (by manufacturer and model number) of special equipment (other than 110 volt, 60HZ, requiring less than 10 amps) that requires utility services, including, but not limited to, telecommunication equipment such as data transmission and computer lines that shall be designated by the County's Information Technology Division.

10. FURNISHINGS AND EQUIPMENT

The Architect shall provide dimensional, color finish, power, etc., information necessary to specify any moveable furnishings and equipment not included in a project. Dimensional furniture plans shall incorporate and coordinate the requirements for electrical, communications, and data based on use and equipment, as well as the location of HVAC control devices and access panels. The Architect shall be compensated with Additional Services for any design and specification related to movable furnishings, fixtures and equipment requested by the County beyond that described above, provided that the Architect is not obligated to perform, furnish or incur such services as part of Basic Services.

11. TELECOMMUNICATIONS EQUIPMENT

Telecommunications and/or radio equipment for County facilities generally falls under the jurisdiction of the County's Information Technology Division. The County will instruct the Architect when and/or where outlets, conduits, wiring, etc., are to be included in the Project. The Architect shall coordinate with utility companies and other agencies.

12. SOFTWARE REQUIREMENTS

- A. Drawing Formats. All CAD drawings shall be supplied in PDF format as well as in DWG format and be readable by the County-supported CAD desktop software (Autodesk AutoCAD). file properties remaining intact.

- B. Other formats. File formats for word processor documents, spreadsheet documents, or slide presentations shall be those used by the Microsoft family of office software such as Word, Excel, and PowerPoint. Contact the County for the version. Macros may be included with these documents provided they are virus free, their function is explained next to the Code, and they are not write protected.
- C. Graphics shall be submitted in TIF, GIF, JPG, CALS or PDF file format (compressed image formats only). This option is intended for photos, conceptual sketches, etc., and not to indicate that raster file drawings will be accepted in place of AutoCAD DWG files.
- D. Data file formats for projects that employ information contained in a database or spreadsheet shall be those used by one of the following: Oracle, Microsoft Access, Microsoft SQL, or Microsoft Excel. All linkages of non-graphical data with graphic elements, relationships between database tables, and report format shall be maintained. All database tables shall conform to the structure and field naming guidance provided by the County. The Architect shall conform database file format preference with the County prior to issuance of database files.
- E. File formats for project management documents shall be either that used by Microsoft Project or hard copy. Confirm file format with County. Save project files with baseline.
- F. Deliverables integrating multiple file formats may be submitted as a PDF (version 4 or later) in addition to the base file structure. Examples include reports, photographs, and manuals created by using a variety of software packages and file formats. Confirm deliverable format preference with the County.
- G. Building Information Modeling (BIM). Projects and project teams are encouraged to utilize 3D object model and other building information model technology and software applications (including during project stages of planning, design, construction, and handover to space management and facility operations and maintenance). Outputs from these applications are acceptable as deliverables to the County, provided that 2D output is also submitted that fully complies with all provisions herein.

13. KEY PERSONNEL AND CONSULTANTS

The Architect's key personnel and consultants designated for a project shall remain assigned for the duration of a project. Any substitutions of the Architect's key personnel and consultants

require written notification to the County and prior written consent of the County. The County may require substitution of any personnel or consultants provided that the County has first notified the Architect in writing and allowed a reasonable period for adjustments and/or corrections.

14. GEOTECHNICAL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of necessary geotechnical or soils engineering services that will be required. If the Architect does not believe the services of a Geotechnical Engineer are required for a project, a written notice of such shall be provided to the County stating same. Geotechnical engineering and any necessary surveys shall be County-provided, as Additional Services or a reimbursable expense.

15. CIVIL ENGINEERING

The Architect shall, during the Schematic Design Phase, submit to the County a statement of need and extent of civil engineering required for the project to protect new and existing structures on or around the site from adverse conditions. Extensive civil engineering, or civil engineering work outside of the immediate site proposed for a project, shall be Additional Services or a reimbursable expense.

16. STANDARD OF CARE

The Architect represents that its officers, agents, employees and consulting professionals and subcontractor possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, subcontractors, joint ventures, and agents shall not be construed as a diminution of the Architect's liability and responsibilities to the County.

17. APPLICATION OF PROFESSIONAL SEALS

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. For project manuals and technical reports the seal shall be provided by the design professional responsible for the overall coordination of a project. If more than one design professional has responsibility for portions of the work, additional seals may be provided on the cover, or on a separate signature sheet immediately following the table of contents.

18. REVIEW PROCESS

The Architect shall submit documents for review as required by the Agreement. The Architect shall provide five sets of review documents to the County for each review. Following the

reviews, the Architect shall respond to the County's Project Manager in writing to all review comments and questions within 14 calendar days.

20. TIME

The Architect shall perform Basic and Additional Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Work. The Architect shall submit, for the County's approval and as part of this Agreement, a Schedule of Performance of the Architect's services and shall include allowances for periods of time required for the County's review and approval of submissions and for approvals of authorities having jurisdiction over a project. This schedule, when approved by the County, shall not, except for reasonable cause not within the control of the Architect, be exceeded by the Architect. Failure of the Architect to perform within a schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Architect.

21. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Architect or its employees in the interest of a project. The Architect shall incur no expenses for which the Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with a project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.
- B. Expenses of fees paid for securing approvals of authorities having jurisdiction over a project.
- C. The Architect shall charge Bidders or Offerors a deposit fee equal to the full cost of reproduction of drawings, specifications, and other documents required by the County to solicit bids or proposals and execute the Construction Contract. This fee shall be completely refunded if the documents are returned in usable condition within the time frame specified in the Invitation for Bid or Request for Proposals. All forfeited fees shall be returned to the County.

- D. Construction documents and specifications will be printed by the lowest quote received from print rooms specified by the County. All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Architect and the Architect's consultants shall be provided as part of the Architect's Basic Compensation.
- E. Reimbursable expenses, if allowed by this Agreement, shall be compensated at direct cost not to exceed the reimbursable amounts as indicated in Exhibit A of this Agreement, unless otherwise modified by written amendment.

22. OWNER'S RESPONSIBILITIES

- A. The County may designate, in writing, a representative authorized to act in its behalf, however, authority for final approval of the Project Phase Documents, the Contract Documents, or any Change Order is retained by the County. The County shall examine documents submitted by the Architect and shall render decisions promptly to avoid unreasonable delay in the progress of the Architect's services.
- B. The County may designate a Project Manager for the project who shall be the County's primary representative in the administration of this Agreement. The Architect will report to the County's Project Manager. All correspondence from the Architect shall be communicated to the Project Manager.
- C. The County shall ensure review in writing of each project phase and shall notify the Architect of the accord.
- D. The County shall furnish a legal description and certified land survey of the site, giving, as applicable grades and lines of streets, alleys, pavements, and adjoining property; rights-of-ways, restrictions, easements, encroachments, zoning, deed restrictions, boundaries, and contours of the site; locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines both public and private, above and below grade, including inverts and depths.
- E. When documents and drawings provided under the above subparagraph are furnished to the Architect, payment of the Construction Document Phase will not be made to the Architect until the County has received all said documents and drawings.
- F. The County reserves the right not to provide certain project-related documents or drawings to the Architect at the County's discretion.

- G. If the County observes or otherwise becomes aware of any fault or defect in a Project or nonconformance with the Contract Documents, prompt written notice thereof shall be given by the County to the Architect.
- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

23. RESPONSIBILITY FOR CONSTRUCTION COST

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11 or an evaluation prepared by the Architect indicates that a project exceeds the MACC, the provisions outlined below shall apply:
 - 1) Evaluations of the County's project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Architect represents the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the a project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.
 - 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Architect and permit reasonable and necessary revisions or reductions to the scope of a project. The Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC.
 - 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Architect shall be permitted to determine what materials, equipment, component systems,

and types of construction are to be included in the Bidding or Proposal Documents to bring Construction Cost within the MACC. With the written consent of the County, the Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit.

- 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Architect submits Bidding or Proposal Documents to the County, the project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought.
- 5) The MACC, therefore, is established as a condition of this Agreement. When it is exceeded by the lowest bona fide bid, the County may:
 - a. Give written approval of an increase on the MACC, or
 - b. Authorize re-bidding of a project within a reasonable time, and
 - c. Cooperate with the Architect in revising the project scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Architect in revising the quality and scope of a project; and the Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

24. ARCHITECT'S RECORDS AND AUDIT

- A. Records of expenses by the Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative.
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments.
- C. Records of expenses shall be kept by the Architect and its consultants and shall be available to the County until all applicable statutes of limitation have run, and this

provision shall survive and continue beyond the termination of other terms of this Agreement.

- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

25. OWNERSHIP AND USE OF DOCUMENTS

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Architect shall become the sole property of the County whether the project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement.
- B. All documents, including drawings and specifications prepared by the Architect pursuant to this Agreement are instruments of service in respect to a project. The Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Architect's services are not retained.
- C. The original drawings may be marked by the County or the Architect to designate any restrictions of use of these documents.
- D. Copyright: No reports, maps, or other documents produced in whole or in part under this Agreement shall be the subject of an application for copyright by or on behalf of the Architect.

26. MAINTENANCE

Ease of maintenance and the ability to repair major items of installed equipment by replacement are essential to all projects. To ensure that these services can be adequately performed after a project is accepted by the County, the Architect shall:

- A. In all relevant Contract Documents, design and provide for all major installed equipment in the project, including but not limited to, removal, access, maintenance, and storage space needs. In addition, all installed equipment systems shall be appropriately identified and labeled to describe the capacities, flows, and other pertinent information related to their maintenance and safe operation;
- B. Specify only equipment that can be readily maintained by the County or other qualified commercial repairman;

- C. Provide Construction Documents that accurately depict the installation of all major items of installed equipment and which provide reasonable detail on all other major systems to be installed;
- D. At the completion of the Schematic, Design Development, and Construction Documents Phases, brief the County on the rationale for the selection of the major mechanical and electrical systems to be specified in the Contract Documents, together with the probable life-cycle costs.

1. SCOPE OF WORK

Architect shall provide the services set forth in Part A Section 2 (Scope of Work) of this Agreement

2. EFFECTIVE DATE AND TERM

This Agreement shall, upon due execution by all parties, become effective as of the date first written in Part A and shall terminate four years later, unless earlier terminated pursuant to Section 4 (Termination) or Section 5 (Appropriations and Authorizations) of these General Terms and Conditions, or when the Project is complete. The term of this Agreement shall not exceed four years in total. After the initial year of the term of this Agreement the County will have the option to extend the term for three years not to exceed four years in total. An extension of the term of this Agreement beyond four years shall require the approval of a modified term by the Board of County Commissioners of Santa Fe County in accordance with Ordinance 2012-5.

3. ADDITIONAL SERVICES

- A. The parties agree that all tasks set forth in Section 1, (Scope of Work) above and Section 5 (Basic Services) of Part A of the Agreement, shall be completed in full, to the satisfaction of the County, for the amount set forth in Section 4 (Compensation), Invoicing, and Set-Off) of Part A of this Agreement, and for no other cost, amount, fee, or expense.
- B. The County may from time-to-time request changes in the Scope of Work to be performed hereunder or under a project assignment. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the County and the Architect, shall be incorporated in written amendments to this Agreement using the Exhibits C, D or F forms.

4. TERMINATION

- A. Termination of Agreement for Cause. Either party may terminate this Agreement based upon any material breach of this Agreement by the other party. The non-breaching party shall give the breaching party written notice of termination specifying the grounds for the termination. The termination shall be effective 30 days from the breaching party's receipt of the notice of termination, during which time the breaching party shall have the right to cure the breach. If, however, the breach cannot with due diligence be cured within 30 days, the breaching party shall have a reasonable time to cure the breach, provided that, within 30 days of its receipt of the written notice of termination, the breaching party began to cure the breach and advised the non-breaching party in writing that it intended to cure.
- B. Termination for Convenience of the County. The County may, in its discretion, terminate this Agreement at any time for any reason by giving the Architect written notice of termination. The notice shall specify the effective date of termination, which shall not be less than 15 days from the Architect's receipt of the notice. The County shall pay the Architect for acceptable work, determined in accordance with the specifications and standards set forth in this Agreement, performed before the effective date of termination but shall not be liable for any work or service performed after the effective date of termination.
- C. Any termination of this Agreement will terminate a project assignment made under this Agreement. In the event of termination, all finished or unfinished documents, data, sketches, calculations, estimates, records, schedules, studies, drawings, maps, models, photographs, reports, and such other information and data accumulated in the performance of services under this Agreement, whether complete or in progress, prepared by the Architect under this Agreement shall become the County's property, and the Architect shall be entitled to receive compensation for actual work

satisfactorily completed hereunder, including reimbursable expenses authorized by the County which are then due.

5. APPROPRIATIONS AND AUTHORIZATIONS

This Agreement is contingent upon sufficient appropriations and authorizations being made for performance of this Agreement by the Santa Fe Board of County Commissioners and/or, if state funds are involved, the Legislature of the State of New Mexico. If sufficient appropriations and authorizations are not made in this or future fiscal years, this Agreement shall terminate upon written notice by the County to the Architect. Such termination shall be without penalty to the County, and the County shall have no duty to reimburse the Architect for expenditures made in the performance of this Agreement. The County is expressly not committed to expenditure of any funds until such time as they are programmed, budgeted, encumbered, and approved for expenditure by the County. BETWEEN SANTA FE COUNTY
AND ARCHITECT
FOR PROFESSIONAL ARCHITECTURAL SERVICES**

**SANTA FE COUNTY
ADMINISTRATIVE SERVICES DEPARTMENT
PURCHASING DIVISION**

2013 EDITION, PART B of Two Parts

Changes, additions, deletions and/or any modifications other than those agreed upon execution of this contract, without the written consent of Santa Fe County shall render this document null and void.

1. SCOPE OF WORK

Architect shall provide the services set forth in Part A Section 2 (Scope of Work) of this Agreement

2. EFFECTIVE DATE AND TERM

This Agreement shall, upon due execution by all parties, become effective as of the date first written in Part A and shall terminate four years later, unless earlier terminated pursuant to Section 4 (Termination) or Section 5 (Appropriations and Authorizations) of these General Terms and Conditions, or when the Project is complete. The term of this Agreement shall not exceed four years in total. After the initial year of the term of this Agreement the County will have the option to extend the term for three years not to exceed four years in total. An extension of the term of this Agreement beyond four years shall require the approval of a modified term by the Board of County Commissioners of Santa Fe County in accordance with Ordinance 2012-5.

3. ADDITIONAL SERVICES

- A. The parties agree that all tasks set forth in Section 1, (Scope of Work) above and Section 5 (Basic Services) of Part A of the Agreement, shall be completed in full, to the satisfaction of the County, for the amount set forth in Section 4 (Compensation), Invoicing, and Set-Off) of Part A of this Agreement, and for no other cost, amount, fee, or expense.
- B. The County may from time-to-time request changes in the Scope of Work to be performed hereunder or under a project assignment. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the County and the Architect, shall be incorporated in written amendments to this Agreement using the Exhibits C, D or F forms.

4. TERMINATION

- A. Termination of Agreement for Cause. Either party may terminate this Agreement based upon any material breach of this Agreement by the other party. The non-breaching party shall give the breaching party written notice of termination specifying the grounds for the termination. The termination shall be effective 30 days from the breaching party's receipt of the notice of termination, during which time the breaching party shall have the right to cure the breach. If, however, the breach cannot with due diligence be cured within 30 days, the breaching party shall have a reasonable time to cure the breach, provided that, within 30 days of its receipt of the written notice of termination, the breaching party began to cure the breach and advised the non-breaching party in writing that it intended to cure.
- B. Termination for Convenience of the County. The County may, in its discretion, terminate this Agreement at any time for any reason by giving the Architect written notice of termination. The notice shall specify the effective date of termination, which shall not be less than 15 days from the Architect's receipt of the notice. The County shall pay the Architect for acceptable work, determined in accordance with the specifications and standards set forth in this Agreement, performed before the effective date of termination but shall not be liable for any work or service performed after the effective date of termination.
- C. Any termination of this Agreement will terminate a project assignment made under this Agreement. In the event of termination, all finished or unfinished documents, data, sketches, calculations, estimates, records, schedules, studies, drawings, maps, models, photographs, reports, and such other information and data accumulated in the performance of services under this Agreement, whether complete or in progress, prepared by the Architect under this Agreement shall become the County's property, and the Architect shall be entitled to receive compensation for actual work
