The County has expended \$938,187.19 of the approved budget to date. The MACC for the purpose of calculating the fee for basic services is not adjusted at the time of construction contract award. If, at any time, the MACC and/or the percentage are changed by amendment, the basic services fee shall be adjusted as appropriate. No fee adjustment shall be made for phases already completed.

**4. COMPENSATION, INVOICING, AND SET-OFF**

- A. In consideration of its obligations under this Agreement the Architect shall be compensated as follows:
- B. County shall pay to the Architect in full payment for services satisfactorily performed and all costs and expenses shall be in accordance with Exhibit A (Compensation and Schedule) and Attachment 2 (Architect's Hourly Rate Fee).

In no event will the Architect be paid for services provided in excess of the total compensation amount without this Agreement being amended.
- C. The Architect shall submit a written request for payment, on the form attached hereto as Exhibit B (Architect Pay Request form), when payment is due under this Agreement within each phase of services. Upon the County's receipt of the written request, the County shall issue a written certification of complete or partial acceptance or rejection of the contractual items or services for which payment is sought. The Architect acknowledges and agrees that the County may not make any payment hereunder unless and until the County has issued a written certification accepting the contractual items or services. - G. In no event shall these provisions be construed to impose any obligation upon the County to the Architect.

The Architect represents that its officers, agents, employees and consulting professionals shall possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, joint ventures, and agents shall not be construed as a diminution of the Architect's liability and responsibilities to the County.

## **17. APPLICATION OF PROFESSIONAL SEALS**

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. This schedule, when approved by the County, shall not, except for reasonable cause not within the control of the Architect, be exceeded by the Architect (see Exhibit A, Compensation and Schedule. Failure of the Architect to perform within this schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Architect.

## 21. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Architect or its employees in the interest of the Project. The Architect shall incur no expenses for which the Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with the Project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.

- C. The Architect shall charge Bidders or Offerors a deposit fee equal to the full cost of reproduction of drawings, specifications, and other documents required by the County to solicit bids or proposals and execute the Construction Contract. This fee shall be completely refunded if the documents are returned in usable condition within the time frame specified in the Invitation for Bid or Request for Proposals. All forfeited fees shall be returned to the County.

All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Architect and the Architect's consultants shall be provided as part of the Architect's Basic Compensation.

- E. Reimbursable expenses, if allowed by this Agreement, shall be compensated at direct cost not to exceed the reimbursable amounts as indicated in Exhibit A of this Agreement, unless otherwise modified by written amendment.

## **22. OWNER'S RESPONSIBILITIES**

- A. The County may designate, in writing, a representative authorized to act in its behalf, however, authority for final approval of the Project Phase Documents, the Contract Documents, or any Change Order is retained by the County. The County shall examine documents submitted by the Architect and shall render decisions promptly to avoid unreasonable delay in the progress of the Architect's services.

- D. The County shall furnish a legal description and certified land survey of the site, giving, as applicable grades and lines of streets, alleys, pavements, and adjoining property; rights-of-ways, restrictions, easements, encroachments, zoning, deed restrictions, boundaries, and contours of the site; locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines both public and private, above and below grade, including inverts and depths.

- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

## **23. RESPONSIBILITY FOR CONSTRUCTION COST**

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11) or an evaluation prepared by the Architect indicates that the Project exceeds the MACC, the provisions outlined below shall apply:
- 1) Evaluations of the County's Project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Architect represents the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.
  - 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Architect and permit reasonable and necessary revisions or reductions to the scope of the Project. The Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC;
  - 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Architect shall be permitted to determine what materials, equipment, component systems, and types of construction are to be included in the Bidding or Proposal Documents to bring Construction Cost within the MACC. With the written consent of the County, the Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit;
  - 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Architect submits Bidding or Proposal Documents to the County, the Project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between

the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought;

- 5) The MACC, therefore, is established as a condition of this Agreement. When it is exceeded by the lowest bona fide bid, the County may:
- a. Give written approval of an increase on the MACC, or
  - b. Authorize re-bidding the Project within a reasonable time, and
  - c. Cooperate with the Architect in revising the Project Scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Architect in revising the quality and scope of the Project; and the Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

#### **24. ARCHITECT'S RECORDS AND AUDIT**

- A. Records of expenses by the Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative;
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments;
- C. Records of expenses shall be kept by the Architect and its consultants and shall be available to the County until all applicable Statutes of Limitations have run, and this provision shall survive and continue beyond the termination of other terms of this Agreement;
- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three (3) years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

#### **25. OWNERSHIP AND USE OF DOCUMENTS**

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Architect shall become the sole property of the County whether the Project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement;
- B. All documents, including drawings and specifications prepared by the Architect pursuant to this Agreement are instruments of service in respect to the Project. The Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Architect's services are not retained;
- C. The original drawings may be marked by the County or the Architect to designate the restrictions of use of these documents as set forth in the subparagraph 13.B;

- A. In all relevant Contract Documents, design and provide for all major installed equipment in the Project, including but not limited to, removal, access, maintenance, and storage space needs. In addition, all installed equipment systems shall be appropriately identified and labeled to describe the capacities, flows, and other pertinent information related to their maintenance and safe operation;
- B. Specify only equipment that can be readily maintained by the County or other qualified commercial repairman;
- C. Provide Construction Documents that accurately depict the installation of all major items of installed equipment and which provide reasonable detail on all other major systems to be installed;
