12. GEOTECHNICAL ENGINEERING

The Landscape Architect shall, during the Schematic Design Phase, submit to the County a statement of necessary geotechnical or soils engineering services that will be required. If the Landscape Architect does not believe the services of a Geotechnical Engineer are required for a project, a written notice of such shall be provided to the County stating same. Geotechnical engineering and any necessary surveys shall be County-provided, as Additional Services or a reimbursable expense.

13. CIVIL ENGINEERING

The Landscape Architect shall, during the Schematic Design Phase, submit to the County a statement of need and extent of civil engineering required for the project to protect new and

existing structures on or around the site from adverse conditions. Extensive civil engineering, or civil engineering work outside of the immediate site proposed for a project, shall be Additional Services or a reimbursable expense.

14. STANDARD OF CARE

The Landscape Architect represents that its officers, agents, employees and consulting professionals and subcontractor possess the experience, knowledge, and character necessary to qualify them individually for the services to be performed by them under this Agreement. All services shall be performed in accordance with the standards of their respective profession. Such affirmation by consultants, sub consultants, subcontractors, joint ventures, and agents shall not be construed as a diminution of the Landscape Architect's liability and responsibilities to the County.

15. APPLICATION OF PROFESSIONAL SEALS

Final technical reports and all bidding documents shall contain a legible seal, signature, date and license expiration date of the design professional responsible for the document or under whose supervision the document was prepared. Following the reviews, the Landscape Architect shall respond to the County's Project Manager in writing to all review comments and questions within 14 calendar days.

17. SITE

The physical location on which a project is built, including all land acquired for a project or associated with a project, including surface drainage, wells, transmission lines, easements, rights-of-ways, roadway and existing facilities that may be directly or indirectly affected by a project or that might affect a project.

18. TIME

The Landscape Architect shall perform Basic and Additional Services as expeditiously as is consistent with professional skill and care and the orderly progress of the Work. The Landscape Architect shall submit, for the County's approval and as part of this Agreement, a Schedule of Performance of the Landscape Architect's services and shall include allowances for periods of time required for the County's review and approval of submissions and for approvals of authorities having jurisdiction over a project. This schedule, when approved by the County,

shall not, except for reasonable cause not within the control of the Landscape Architect, be exceeded by the Landscape Architect. Failure of the Landscape Architect to perform within a schedule except through authorized extensions shall constitute a basis for termination and/or withholding of payment until schedule compliance is achieved by the Landscape Architect.

19. REIMBURSABLES

Reimbursable expenses are those in addition to Basic Services compensation and are the actual, incidental expenditures made by the Landscape Architect or its employees in the interest of a project. The Landscape Architect shall incur no expenses for which the Landscape Architect is entitled reimbursement until the County gives written approval. Reimbursable expenses shall include, but not limited to, the following:

- A. Expenses of transportation when traveling in connection with a project. Such expenses are limited to per diem and mileage rates are set forth in the Per Diem and Mileage Act, Section 10-8-1 to 10-8-8, NMSA 1978 and DFA Rule 95-1 as amended, except that the County shall authorize such travel in advance.
- B. Expenses of fees paid for securing approvals of authorities having jurisdiction over a project.
- C. The Landscape Architect shall charge Bidders or Offerors a deposit fee equal to the full cost of reproduction of drawings, specifications, and other documents required by the County to solicit bids or proposals and execute the Construction Contract. This fee shall be completely refunded if the documents are returned in usable condition within the time frame specified in the Invitation for Bid or Request for Proposals. All forfeited fees shall be returned to the County.
- D. Construction documents and specifications will be printed by the lowest quote received from print rooms specified by the County. All reproduction required must be approved in writing by the County prior to request. This expense shall be paid by the County for the initial Bidding and by the Landscape Architect for subsequent Biddings. All other reproductions as may be required for the County's review or for the office use of the Landscape Architect and the Landscape Architect's consultants shall be provided as part of the Landscape Architect's Basic Compensation.
- E. Reimbursable expenses, if allowed by this Agreement, shall be compensated at direct cost not to exceed the reimbursable amounts as indicated in Exhibit A of this Agreement, unless otherwise modified by written amendment.

20. OWNER'S RESPONSIBILITIES

- A. The County may designate, in writing, a representative authorized to act on its behalf, however, authority for final approval of the Project Phase Documents, the Contract Documents, or any Change Order is retained by the County. The County shall examine documents submitted by the Landscape Architect and shall render

decisions promptly to avoid unreasonable delay in the progress of the Landscape Architect's services.

- B. The County may designate a Project Manager for the project who shall be the County's primary representative in the administration of this Agreement. The Landscape Architect will report to the County's Project Manager. All correspondence from the Landscape Architect shall be communicated to the Project Manager.
- C. The County shall ensure review in writing of each project phase and shall notify the Landscape Architect of the accord.
- D. The County shall furnish a legal description and certified land survey of the site, giving, as applicable grades and lines of streets, alleys, pavements, and adjoining property; rights-of-ways, restrictions, easements, encroachments, zoning, deed restrictions, boundaries, and contours of the site; locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines both public and private, above and below grade, including inverts and depths.
- E. When documents and drawings provided under the above subparagraph are furnished to the Landscape Architect, payment of the Construction Document Phase will not be made to the Landscape Architect until the County has received all said documents and drawings.
- F. The County reserves the right not to provide certain project-related documents or drawings to the Landscape Architect at the County's discretion.
- G. If the County observes or otherwise becomes aware of any fault or defect in a Project or nonconformance with the Contract Documents, prompt written notice thereof shall be given by the County to the Landscape Architect.
- H. The County shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Landscape Architect's services and of the Work.
- I. The County will provide or make available to the Landscape Architect, at no cost to the Landscape Architect, such GIS data, records, or digital files as are necessary for Landscape Architect to complete the Scope of Work under this Agreement. Such GIS data files (e.g. shapefiles, mosaics, images) if available for the project will include without limitation GIS data files pertaining to areas within half of a mile on either side of the project site and any and all data or records that the Landscape Architect deems necessary for the Landscape Architect to satisfactorily complete the Scope of Work under this Agreement. Landscape Architect agrees to use the GIS data or digital files solely for purposes of completion of the Scope of Work under this Agreement. Landscape Architect agrees to provide the County with, or share, at

no cost to the County electronic copies of any digital mapping files (aka GIS data) produced by the Landscape Architect under this Agreement. GIS data, if generated for the project, shall be provided by the Landscape Architect in ESRI feature classes file geodatabase or shapefile formats compatible with ArcGIS 10.3.1 All GIS datasets will reference the New Mexico State Plane Coordinate System, Central Zone, NAD1983_HARN in units of U.S. Survey Feet (NAD_1983_HARN_StatePlane_New_Mexico_FIPS_3002_Feet). The Landscape Architect understands and acknowledges that the County assumes no liability to errors associated with the use of GIS data or digital files provided by the County. Landscape Architect is solely responsible for confirming the accuracy of GIS data or digital files obtained from the County under this Agreement.

21. RESPONSIBILITY FOR CONSTRUCTION COST

- A. When the detailed statement of probable construction cost required by subparagraph 5.D.11 or an evaluation prepared by the Landscape Architect indicates that a project exceeds the MACC, the provisions outlined below shall apply:
- 1) Evaluations of the County's project budget, statements of probable construction cost, and detailed estimates of construction cost prepared by the Landscape Architect represents the Landscape Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that the Landscape Architect does not have control over the cost of labor, materials, or equipment; over the Contractor's methods of determining bid prices; or over competitive bidding, market, or negotiating conditions. Accordingly, the Landscape Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the a project budget proposed, established, or approved by the County, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Landscape Architect.
 - 2) The MACC may be adjusted by the County at the completion of the Programming Phase, and the design fees shall be modified. The MACC, at the start of the Schematic Design Phase, may only be adjusted based upon modifications to the Scope of Work approved in advance by the County. The Landscape Architect shall notify the County in writing at any time the estimated cost of construction is expected to exceed the MACC. The Landscape Architect's written notification shall include a detailed explanation and shall provide suggestions for reducing the estimated cost so that it does not exceed the MACC. The County agrees to cooperate with the Landscape Architect and permit reasonable and necessary revisions or reductions to the scope of a project. The Landscape Architect agrees to revise the drawings and specifications as necessary at no additional expense to the County, if so requested by the County, in order to bring the estimated cost within the MACC.

- 3) The MACC is established, as a condition of this Agreement, as a fixed limit of Construction Cost for design and bidding purposes. The Landscape Architect shall be permitted to determine what materials, equipment, component systems, and types of construction are to be included in the Bidding or Proposal Documents to bring Construction Cost within the MACC. With the written consent of the County, the Landscape Architect may also include in the Bidding or Proposal Document either additive or deductive alternate bids or proposals to adjust the Construction Cost to the fixed limit.
- 4) If bidding or negotiations with potential Contractors have not commenced within two months after the Landscape Architect submits Bidding or Proposal Documents to the County, the project budget and/or MACC shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Bidding or Proposal Documents to the County and the date on which proposals are sought.
- 5) The MACC, therefore, is established as a condition of this Agreement. When it is exceeded by the lowest bona fide bid, the County may:
 - a. Give written approval of an increase on the MACC, or
 - b. Authorize re-bidding of a project within a reasonable time, and
 - c. Cooperate with the Landscape Architect in revising the project scope and, as required, to reduce the Probable Construction Costs.

If the County elects to reduce the Probable Construction Cost, the County shall cooperate with the Landscape Architect in revising the quality and scope of a project; and the Landscape Architect, without additional charge for services or re-printing of the Drawings and Specifications shall modify the Drawings and Specifications as necessary to bring the Construction Cost within the MACC. The Landscape Architect shall then assist the County through the Bidding process (see Subparagraph 5.E).

22. LANDSCAPE ARCHITECT'S RECORDS AND AUDIT

- A. Records of expenses by the Landscape Architect and its consultants pertaining to all services under this Agreement shall be kept on the basis of generally accepted accounting principles and shall be available at mutually convenient times to the County or the County's authorized representative.
- B. The County shall have the right to audit all such records and billings both before and after payment. Payment under this Agreement shall not foreclose the right of the County to recover excessive or illegal payments.

- C. Records of expenses shall be kept by the Landscape Architect and its consultants and shall be available to the County until all applicable statutes of limitation have run, and this provision shall survive and continue beyond the termination of other terms of this Agreement.
- D. These records shall be subject to inspection by the County and shall be maintained for inspection for a period of three years. Billings may be audited both before and after payment; and payment by the County under this Agreement and shall not foreclose the right of the County to recover excessive or illegal payments.

23. OWNERSHIP AND USE OF DOCUMENTS

- A. Original construction document drawings, designs, specifications, notes, project manuals, and/or related documents and other work developed in the performance of this Agreement by the Landscape Architect shall become the sole property of the County whether the project for which they are made is constructed or not, pursuant to Section 13-1-123, NMSA 1978. The County shall keep these documents on file. The Landscape Architect may maintain a complete reproducible set of any and all record documents developed under this Agreement.
- B. All documents, including drawings and specifications prepared by the Landscape Architect pursuant to this Agreement are instruments of service in respect to a project. The Landscape Architect shall not be liable should the County use the documents, in whole or in part, in the future when the Landscape Architect's services are not retained.
- C. The original drawings may be marked by the County or the Landscape Architect to designate any restrictions of use of these documents.
- D. Copyright: No reports, maps, or other documents produced in whole or in part under this Agreement shall be the subject of an application for copyright by or on behalf of the Landscape Architect.

24. MAINTENANCE

Ease of maintenance and the ability to repair major items of installed equipment by replacement are essential to all projects. To ensure that these services can be adequately performed after a project is accepted by the County, the Landscape Architect shall:

- A. In all relevant Contract Documents, design and provide for all major installed equipment in the project, including but not limited to, removal, access, maintenance, and storage space needs. In addition, all installed equipment systems shall be appropriately identified and labeled to describe the capacities, flows, and other pertinent information related to their maintenance and safe operation;

- B. Specify only equipment that can be readily maintained by the County or other qualified commercial repairman;
- C. Provide Construction Documents that accurately depict the installation of all major items of installed equipment and which provide reasonable detail on all other major systems to be installed;
- D. At the completion of the Schematic, Design Development, and Construction Documents Phases, brief the County on the rationale for the selection of the major mechanical and electrical systems to be specified in the Contract Documents, together with the probable life-cycle costs.
