

Have Working Smoke Alarms - Close Before You Doze - Have An Escape Plan

Test your Smoke Alarms!

BEEP BEEP BEEP

BEEP-BEEP-BEEP...

BEEP-BEEP-BEEP...

That sound means there is a fire
in your home.

You need to get out fast!

**Test your smoke alarms every month to
make sure they work!**

Push the test button. If you hear BEEP BEEP BEEP, that means the smoke alarm is working. If you don't hear that sound, put in a new battery or get a new smoke alarm. Smoke alarms do not last forever. Replace your old smoke alarms with new ones every 10 years.

CHIRP

CHIRP!

That sound means the battery is not
working well, or the smoke alarm is
getting old.

You need to put in a new battery or get
a new smoke alarm.

It's time for you to get to work!

Use this sheet to test the smoke alarms in your home. Ask a grown-up to help. Circle Yes or No for each question. When you are finished, write your name in the space provided. Bring the sheet back to class to discuss what you learned.

Do you have a smoke alarm in your home? Yes No

If yes, do you have a smoke alarm in or near every bedroom and sleeping area? Yes No

Do all of the smoke alarms work when you test them? Yes No
