

30x30

SANTA FE COUNTY

SANTA FE COUNTY PROGRESS REPORT, FISCAL YEAR 2022

Conserving 30% of Santa Fe County's Land and Water by 2030

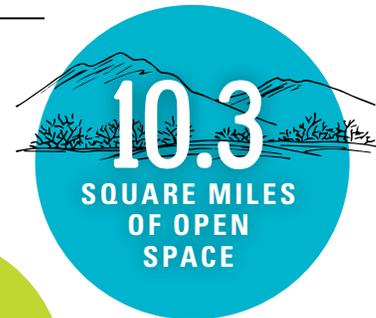

This year, with the help of community volunteers, Santa Fe County planted native and drought tolerant trees and shrubs across eight locations.

As part of 30x30, the County plans to enhance wildlife habitat, store more carbon in the land, and increase access to nature in the

1,911 SQUARE MILES of land in Santa Fe County.

Santa Fe County manages:

2022 PLANTING AND RESTORATION LOCATIONS

Santa Fe County Commissioners voted to officially support the 30x30 initiative in December 2020 with the passage of Resolution 2020-93. Local partners include:
