INTERFUND TRANSFERS	37,337,593		
TOTAL COUNTY BUDGET	63,100,696 225,159,170	nuae -	1

The budgets for each division are on the following pages. This spreadsheet shows the entire Santa Fe County budget broken down by Department/Division and Elected Office. Note that Non-correctional Public Safety components are grouped together as opposed to appearing in their respective departments or Offices.

Funded and frozen positions are shown as well. In the following organizational budgets actual wages are shown, and vacant and/or frozen positions are identified as "not filled". Individual salaries are not shown for positions that are not filled but appear in the "unallocated salary" total. If frozen, a position does not have any budget authority. If the "unallocated salary" number is negative, the amount over-allocated must be made up by vacancy savings or other savings within the cost center by the end of the fiscal year.

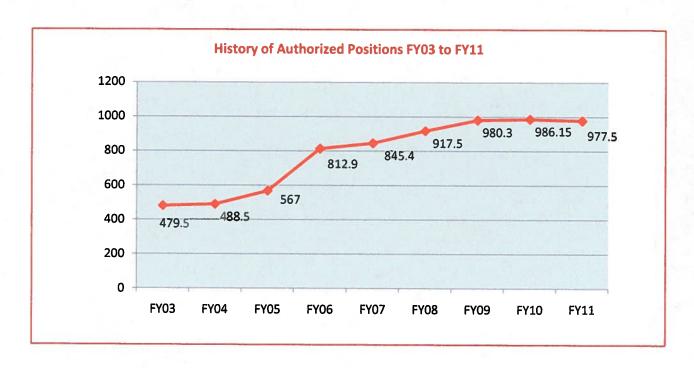

SECTION VII ORGANIZATION BUDGETS

The above graph indicates the growth of Santa Fe County's authorized positions. As you can see there was a large increase in authorized positions during FY05 to FY06 due to the take-over the Adult Detention facility which was formerly run by a private contractor. There were also significant increases in FY08 and FY09. This is due to the take-over of the Regional Emergency Communications Center (RECC) from the City of Santa Fe (FY08) and the "Project 48" initiative to increase the size of the County Fire Department (FY08 and FY09). The number of authorized positions was reduced in FY 2011 as indicated in the information above. Note that of the 976.5 positions authorized, 79.8 FTE positions were frozen as of July 1, 2010.
